CAREER OBJECTIVE

Seeking a dynamic startup-like environment that fosters continuous learning and professional growth, allowing me to contribute my strong work ethic and drive to achieve impactful results.

INTERNSHIP

Web Development Internship | Let's Grow More Link

June 2022 – April 2023

- Successfully concluded my internship at Technical Hub, Surampalem, where I focused on Full Stack Development.
- During my internship, I acquired proficiency in utilizing ReactJS to develop intricate component-based websites while also gaining experience in integrating MongoDB .
- Developed a project called Contact Manager involves creating a software application used to store and organize contacts of a user.

PROJECTS

Student Profile Management | Full Stack [Github]

- Contributed to a project involving the development of an application designed to proficiently manage student information. The Purpose of this project is to create centralized platform that enable school administrators, teachers and student to manage their academic records in one place.

Student Face Log | Machine Learning [Github]

- Engineered an intelligent system capable of capturing real-time facial data, conducting comparisons with established profiles, and seamlessly documenting the attendance of identified individuals within a user-friendly Excel Sheet. This innovative solution ensures precise and convenient management of attendance records.

ACHIEVEMENTS
